andium

Advanced Object Detection

Affordable site and security monitoring without the false positives

With the most cost-effective smart optical imagery on the market, Andium provides customers with the ability to monitor their sites and facilities for specific events and anomalies, and filter out the noise of the things that they do not care about.

View of Deployed System

APPLICATIONS INCLUDE:

- People detection
- Truck Detection
- Animal Detection
- Anomaly Detection (e.g. fires)
- Daily Count Reports (e.g. daily hauler truck counts)
- Ability to track unauthorized activity in real time

KEY BENEFITS

- Customizable Real-Time Event Driven Identification System
- Smart Object Detection that drastically reduces data fees associated with false motion triggers
- Cost Effective Pricing and Easy Installation
- Andium On-Board Operating System for Customization and Remote Updates

- Andium Dashboard and Cloud Integration
- Supports Various Camera Types Based on Client Needs
- Reduced Costs Through Locally Computed and Stored Events
- Third-Party System Integrations
- Provides instant visibility for site integrity and safety
